Product No.: [98046408](#)

The Grundfos GO Remote is used to establish wireless connection to a Grundfos product, using a standard Android or iOS platform, with the Grundfos GO Remote App installed. The App is available from Apple App Store and Google Play free of charge.

The MI 301 is a module with built-in infrared and radio communication. It must be used in conjunction with an Android or iOS-based Smartphone with Bluetooth connection. The MI 301 module has rechargeable Li-ion battery and must be charged separately.

The pump/system can be monitored and controlled from the Grundfos GO, and it will be possible to create pdf reports. The specific functions available depend on each individual product.
